Bùi Ngô Tôn Bách

Mobile Software Engineer

(+84) 384560623
bachbnt@gmail.com
Ho Chi Minh City, Vietnam

SUMMARY & OBJECTIVE

SUMMARY

- Senior Mobile Engineer with 5+ years of experience building and scaling production-grade mobile applications used by tens of millions of users.
- Strong expertise in React Native and Kotlin Multiplatform Mobile (KMM), specializing in payment systems, real-time transaction flows, and wearable platforms (WearOS, watchOS).
- Proven ability to lead critical modules, design clean and modular architectures, and collaborate cross-functionally to deliver secure, high-performance features in large-scale Super App ecosystems.

OBJECTIVE

- To grow into a Mobile Tech Lead or Project Manager role, focusing on mobile architecture, cross-platform solutions, and high-impact payment systems, while contributing to scalable products and mentoring junior engineers in a collaborative, innovation-driven environment.

WORK EXPERIENCE

FPT SOFTWARE

Jan 2026 - Present

MOBILE DEVELOPER

Projects: 9PP

- Position: Function Leader
- Technologies: Android, MVVM, Clean Architecture, Jetpack Compose
- *Responsibilities:*

MOMO (M_SERVICE)

May 2022 - Jan 2026

SENIOR MOBILE APP DEVELOPER

MoMo Super App: React Native, KMM
App Payment/ App Platform Team
Technologies: React Native, Kotlin, KMM, Clean Architecture, WearOS, watchOS
Responsibilities:

- Architected and developed a cross-platform payment solution for wearable devices (Apple Watch, WearOS, Huawei, Garmin), enabling QR-based transactions and secure authentication using native payment APIs (Apple Pay, Google Pay).
- Led the Transaction Result module, improving reliability and user experience by implementing real-time transaction status updates via MQTT.
- Led development of the FinancialHub mini-app, a centralized entry point for personal finance features including bank linking, insurance, and investments.
- PayX: Migrated multiple payment mini-apps from React Native to native Android/iOS using Kotlin Multiplatform Mobile (KMM), unifying business logic and reducing feature inconsistency across platforms.
- Enhanced and maintained core mini-apps: Payment, Cash In/Out, Bank Linking, Account Management, and Transaction Result.
- Established real-time performance monitoring with Grafana dashboards, tracking startup time, error rate, and JS thread performance to proactively improve app stability.
- Collaborated closely with backend, product, QA, and UI/UX teams in an Agile environment to deliver high-impact features for millions of users.

DEVBLOCK VIETNAM

Mar 2020 - Apr 2022

JUNIOR MOBILE DEVELOPER

Technologies: React Native, Flutter, Android

Projects:

- AppZocial: Social networking app - implemented media uploads and real-time chat using React Native.
- Evolve1: Fitness and communication app for coaches and athletes - developed core features with Flutter and Firebase backend.
- HydroAssist: Medical tracking app - handled notifications and data synchronization.
- Zera: IoT application for body temperature tracking via NFC.

Responsibilities:

- Implemented UI components, integrated REST APIs, and delivered features end-to-end.
- Followed Agile practices using Git, Jira, and Trello.

TMA SOLUTIONS

Jul 2019 - Sep 2019

MOBILE DEVELOPER INTERN

Mitel Team

- Built core features for a VoIP application, including authentication, call interface, and SIP integration on Android.

EDUCATION

Dec 2020 - Jun 2023

MASTER OF SCIENCE - PHYSICS AND INFORMATICS

UNIVERSITY OF SCIENCE - VIETNAM NATIONAL UNIVERSITY HO CHI MINH CITY

- Thesis: Stock Price Trend Prediction using Machine Learning
- Technologies: Python, Keras, LSTM, Matplotlib
- Reference: http://ir.vnulib.edu.vn/handle/VNUHCM/31347

Sep 2016 - Sep 2020

BACHELOR OF SCIENCE - PHYSICS AND INFORMATICS

UNIVERSITY OF SCIENCE - VIETNAM NATIONAL UNIVERSITY HO CHI MINH CITY

- Thesis: Internal Social Network Application
- Technologies: Flutter, React Native

CERTIFICATIONS

Apr 2026

Google AI Professional Certificate

May 2026

Google Project Management Professional Certificate

SKILLS

Mobile

- React Native, Flutter, Kotlin, Swift
- Kotlin Multiplatform Mobile (KMM)
- WearOS, watchOS
- MVVM, Clean Architecture

AI

- Prompt and Context Engineering
- LLM, RAG, Fine-tuning

Frontend

- ReactJS, VueJS. NextJS

Backend

- NodeJS, ExpressJS, NestJS

DevOps

- CI/CD
- Docker

Analytics & Monitoring

- Firebase Analytics, Firebase Crashlytics, Grafana

Tools

- Git, Jira, Confluence

PROJECTS & RESEARCH

Stock Prices Prediction - MSc Thesis

Jan 2022 - Mar 2023

Researcher / Developer

- Built an LSTM-based model to predict VN-Index trends.
- Technologies: Python, Keras, Matplotlib

- Technologies: Python, Keras, Matplotlib
- Source: https://github.com/bachbnt/learn-stock_prices_prediction-python

Personal Portfolio Website

Apr 2021 - Apr 2021

Developer

- Designed and developed a personal portfolio website.
- Technologies: ReactJS, Material UI, Firebase Hosting, CI/CD
- Live: https://bachbntdev.web.app

Internal Social Network - BSc Thesis

Dec 2019 - Feb 2020

Developer

- Developed an internal social networking platform.
- Technologies: Flutter, BLoC, React Native, Redux
- Source: https://github.com/bachbnt/learn-pc_dashboard-flutter_reactnative
